

Date: March 2020

Action Plan

Eco-Schools Topic:
Healthy Living

Aim: To encourage the children and staff of Buglawton Primary to understand the importance of and make healthy food and drink choices throughout the day.

Action(s):

- To create rewards/certificates/stickers to give to children/staff who have a healthy choice in their lunchbox. Focus on one element of a balanced diet.
- To create an information poster stating what a balanced diet is and examples of good lunchtime food choices.

How long will it take?

- To be in place and working effectively by the end of the summer term.
- A continuous effort that will remain in place and adapted yearly.

Who is responsible?

- All staff and Pupils of Buglawton Primary School
- Eco council and eco coordinator

How we will monitor progress:

- To record the volume of children making positive food choices at various points throughout the term.
- To photograph children making good food choices to provide an example to others.

Eco-Schools Topic:
Litter

Aim: To create awareness of the impact of litter on the environment and the impact of litter on our school ground.

Action(s):

- To create a litter pick rota for KS1 and KS2 pupils.
- To participate in a whole school assembly and workshops from a Greenpeace speaker to learn about the impact of litter on our world.
- To create posters to highlight the importance of cleaning up our litter.
- To request new outdoor bins

How long will it take?

- To be in place and working effectively by the end of the summer term.
- A continuous effort that will remain in place and adapted yearly.

Who is responsible?

- All staff and Pupils of Buglawton Primary School
- Eco council and eco coordinator

How we will monitor progress:

- To record the volume of found litter and its location (starting with crisps)
- To monitor the litter picks taking place in school
- To photograph different areas of the school grounds that are usually littered over the year.

Eco-Schools Topic:
Bio-diversity

Aim: To encourage and monitor the wildlife visiting our school grounds.

Action(s):

- To develop outdoor areas in the EYFS by forming a parent/grandparent support group.
- To continue to grow sustainable plants that will encourage wildlife to our school grounds.
- To educate children on the importance of biodiversity and wildlife.

How long will it take?

- To be in place and working effectively by the end of the summer term.
- A continuous effort that will remain in place and adapted yearly.

Who is responsible?

- All staff and Pupils of Buglawton Primary School
- Eco council and eco coordinator

How we will monitor progress:

- To record wildlife found in different areas of the school grounds at various points during the year.
- To ensure children have an understanding of the importance of biodiversity and wildlife by exploring and questioning learners.
